CLASS 3rd

Dear Parents,

For kids summer break is the best relaxation time. It is usually a long vacation for them from academics and hence one of the joyful times of a student's life where they are just having fun and don't have anything to study. But the long summer break can be utilized for several things. Summer vacation offers an opportunity to show off one's extraordinary abilities. It is the best time for them to learn some new stuff out of the daily schedule. It's a good time to acquire new skills and to focus on your favourite hobbies. Keeping this in mind Holiday homework has been designed to fire the imagination of students while exciting them to explore and discover.
