I am so thankful to DPS Daultpur Junior for its tireless efforts towards the grooming of students. I feel blessed to have put my kids in this school when I witness their overall development. I congratulate the entire team for accomplishing this noble task so beautifully. Kids love coming to school and nevertheless it's their second home. Lots of love and best wishes

In the initial phase the interaction of parents and teachers is very important, it is very important to have a bond because learning is not just the responsibility of the school it's a positive two-way relationship & the bond created by the school staff and teachers is commendable. In this one-year journey, being a parent I did not face any type of problem/challenge. All the parents always do the best for their children, but school must take care of those children in a new environment so that students got that environment adapted & for that the complete staff of DPS has done a lot of work/effort.

Today we feel very proud of our decision that we have enrolled our child in such a great environment. The best part is here children are not only involved in academics, they are also engage in every type of co-curricular activities, school plan lots of new & innovative activities which help little one to get more active & learn new things.

We have seen many positive changes in our ward, he has started mingling with people very quickly, he has got knowledge of different ethics, he starts doing self-study moreover he loves his class teacher (Vimmi Mam) very much and children love only when they are getting love for someone. So, thank you for the love and care you have given to my ward.

Congratulations on great success to entire team.
